

APPLICATION FOR
**HOME/FARM OWNER
ELECTRICAL WIRING PERMIT**

Permit valid for 12 months from date of purchase

This application is restricted to a single phase non-hazardous electrical installation not exceeding 200 amps or 300 volts between phase conductors. Electrical work exceeding 200 amps or 300 volts, polyphase, hazardous locations, renewable energy systems, EV chargers, battery storage installations or generators must be performed by a Licensed Saskatchewan Electrical Contractor

To be eligible for an Electrical Wiring Permit, you must agree with the following:

- I am the owner and occupant of the property, which is a single-family detached dwelling that is intended for the use of one family.
- I am **not** preparing the premise for sale or rent.
- I have **not** held a permit for the complete wiring of a residence in the last 12 months.
- I agree to perform all the work to the requirements of the current *Canadian Electrical Code* and *Saskatchewan Interpretations*.
- I understand that it is unlawful for any person outside the permit holder's immediate family to undertake any part of the work of the installation to which this permit applies.
- I agree to make arrangements for a rough-in and final inspection of the work done under this permit.

I hereby declare that I have read and agree to the above statements
